

3/15/13 North Villa Committee Meeting

Attendees:

Karen Bartles

Steve Curtis

Nancy Sido

Jay Lazar

Dick DeCoste

The meeting was called so as to have a discussion on the proposed Mission Statement and the introduction of members.

All agreed on the mission itself and discussed how we could improve on all the responsibilities that might arise.

The only immediate issue that was addressed was the painting project and the appearance of the villas of Egrets Landing. All comments were positive and all agreed the painting project went without incident. It was unanimous; the outcome of the painting project much improved the appearance of the Egrets Landing villas. The Fenton Davis personnel were neat, careful, and responsive to all concerns.

The only negative was the comments concerning the concrete driveways on Fox Ridge Drive, that have sustained many ugly cracks over the years, and have been unprofessionally filled, which have made it even more obvious. No solutions were suggested and this concern will be addressed at future meetings.

It was decided quarterly meetings will be scheduled with possible conference calls on any topics that may arise that need the committee's immediate attention.

Jay Lazar

Chairperson, North Villa Committee
